

**WE ARE ON OUR WAY!**

Enriching Student Learning One Field Trip at a Time, With or Without the Bus!

Sponsored By

## Students Visit Amazing Places

### Da Vinci 5th Graders visit [Batiquitos Lagoon!](#)

“The inside exhibit was so cool with the animals!”

“I loved being outside to learn about science!”

“Being with friends was the best!”

~ Student Comments.

“This was a wonderful trip that allowed students to be in the environments and ecosystems they're learning about in class.”

We were able to apply the background knowledge we built up about ecosystems and now we're even drawing on their experiences to support new concepts! On top of it all, it was great to allow them to get back out in the real world where they can see science and writing, and other school concepts being applied by real people!!" ~ Ms. Hannah G. & Ms. Tamar B.

## Gorillas In the Rain!

5th & 6th Graders

Visit the [San Diego Zoo](#)

"It was so much fun going to the zoo on a rainy day. The animals were more active and there were less crowds.

The gorilla was my favorite part because even though it was big and strong, it moved fast and scared me. It was a blast in the new Children's zoo with the splash pad and all the neat net obstacles. I hope to come back with my family and enjoy all the new exhibits the zoo has to offer like the bees and butterflies." ~

Student Comment

"Thank you for this amazing opportunity as students were able to extend their learning from classroom of ecosystems and food chain/web to real life learning. The application was easy and fast. Issues were resolved quickly through phone or email. This grant allows so many teachers a unique way to share the world beyond the classroom, especially after the pandemic and being limited to virtual trips."

~ C. De Guzman – Teacher, Kimball Elementary

## Tiger! Tiger!

“Students were able to explore the San Diego Safari Park in smaller groups of 6-8, which allowed them to build bonds with each other and their teachers. They also were able to search for and identify a variety of jobs and career opportunities that the Safari Park provided. Many students commented how amazing the day was, and how they appreciated being able to see the animals while spending time with their friends and teachers. Some students shared that they would like to work in animal conservation.” ~ Teacher – Jefferson Middle School

## Field Trip Xperiences in High Demand!

Field trip funding requests are outpacing last year’s record-breaking year. Yes, field trips on a bus are back. While ABX funds Outreach Programs and Virtual Field Trip requests, there’s nothing like the face- to-face *Xperience* to one of San Diego’s finest arts, cultural and science venues. Unfortunately, the cost of transportation continues to rise. Help us Enrich Student Learning One Field Trip at a Time!

Every \$25 raised covers the direct cost of a single student to visit a museum, theatre, symphony, discovery center, animal and marine habitat. Send a class of 30 students by donating \$750. You can designate your favorite school, teacher, or student.

**Attention Teachers!**

## Visit the Institute of Contemporary Art

ABX and the Institute of Contemporary Art

eld trip

are pleased to announce a special fi

*Xperience* called **Explore and Make**  
by the **Linda Brandes Foundation**.  
and ICA will work together to bring 6  
students to ICA locations: in Balboa  
in Encinitas, for an in-depth tour of th  
galleries, and a hands-on related art activity  
led by a teaching artist. [Learn more](#)
